

ERRATUM

Erratum: Association of CDKAL1 Polymorphisms with Early-Onset Atopic Dermatitis in Koreans

Won Il Heo, Kui Young Park, Mi-Kyung Lee¹, Ju Hee Kim, Nam Ju Moon², Seong Jun SeoDepartments of Dermatology, ¹Laboratory Medicine, and ²Ophthalmology, Chung-Ang University Hospital, Seoul, KoreaAnn Dermatol 2018;30(3):276-283
https://doi.org/10.5021/ad.2018.30.3.276

The original version of the article contained a mistake.

In the first row of Table 3, the percentage of 'Allele frequency of *CDKAL1* polymorphisms in 112 Korean AD patients' was reported incorrectly. Table 3 shows 9.4%, but it should be 92.4%.

We have attached a corrected version of Table 3.

We apologize for this error.

Table 3. Allele and genotype frequency of *CDKAL1* and *ERBB2* polymorphisms in 112 Korean AD patients and 61 controls

Gene	SNP			Control	AD
<i>CDKAL1</i>	rs77152992 (c.1226C>T)	Allele	C	102 (83.6)	207 (92.4)
			T	20 (16.4)	17 (7.6)
		Genotype	CC	44 (72.1)	95 (84.8)
			CT	14 (23.0)	17 (15.2)
<i>ERBB2</i>	rs1058808 (c.3463C>G)	Allele	TT	3 (4.9)	0 (0)
			C	74 (60.7)	129 (57.6)
		Genotype	G	48 (39.3)	95 (42.4)
			CC	21 (34.4)	35 (31.3)
			CG	32 (52.5)	59 (52.7)
		GG	8 (13.1)	18 (16.1)	

Values are presented as number (%). AD: atopic dermatitis, SNP: single-nucleotide polymorphism.
